

Your Nuclear Power Plant Cable Connection

One point of contact for every cable need

The combination of General Cable's nuclear power plant products to our Prysmian/Draka fiber optic cables makes us an even more valuable supplier to the nuclear power industry. CableLAN Nuclear only deals with nuclear power requirements. We now can provide the full line of nuclear power plant cables - electrical and optical. What does that mean to you?

As factory authorized representatives of two premier existing nuclear suppliers, we have cable you need for your plant, including:

Electrical Cables

| | | |
|--|--|--|
| Medium Voltage Power Low Voltage Instrument Communication | Low Voltage Power Thermocouple Specialty electrical | Low Voltage Control Switchboard |
|--|--|--|

Fiber Optic Cables

| | | |
|---|---|--|
| Loose Tube Fiber Optic Blown Fiber | Breakout Fiber Optic Hybrid fiber and electrical | Distribution Fiber Optic ADSS |
|---|---|--|

We can be your one point of contact for all types of nuclear power plant cables. Why CableLAN Nuclear?

- **Experience:** We have been involved in the industry for many years, beginning in 1971
- **Quality:** We have our own 10CFR50 Appendix B and NQA-1 quality assurance program
- **Knowledge:** We have specified, designed, manufactured, qualified and sold to nuclear power plants around the world
- **Standards:** We participate in IEEE technical committees, including those writing nuclear power plant standards. Our involvement helps you understand the changes and trends in the industry.
- **Understanding:** We listen to and understand your needs, and service the complete cycle, from idea to inquiry and to delivery.

Unlike others, cables are made by Prysmian/Draka and General Cable in their own plants. We know our products, top to bottom. We make and sell all types of cable and can help you select the cable that best fits your specific need.

As the only distributor dedicated to the nuclear power industry, we stay aware of industry developments. We can provide you with training and information through our Lunch and Learn and other programs.
